

## Research Assistant - 80%

The International Academy of Sports Science and Technology (AISTS) is currently seeking a research assistant for an on-going research project regarding the legacies of past editions of the Olympic Games. The project consists of methodologically building a large and complex database of legacies of Olympic Games as a reference point for potential candidate cities, International Sport Federations as well as assisting the IOC in communicating on Olympic legacy. The research assistant is to contribute in identifying and taking inventory of legacy initiatives and their lasting effects per Games edition through consulting various secondary sources. He/she will contribute as part of a team to three key deliverables, namely the legacy inventory, a narrative and a critique per Games edition. The project requires rigorous time management, team work and the capacity to work autonomously. A keen interest in research is essential.

### Required Skill Set:

Excellent written English and editorial skills  
Ideally English mother tongue  
Previous experience in research and documentation  
Excellent time management with an ability to meet tight deadlines  
Passion for sport and the Olympic movement

### Personal Traits:

Service oriented and good team spirit  
Strong interpersonal skills, analytical and practical  
Diplomacy, tact and discretion with strong sense of confidentiality  
High level of adaptability  
Strong sense of priority  
Positive attitude, open-minded and flexible

Location: The AISTS office at Synathlon, UNIL

Duration: ASAP to 19<sup>th</sup> of September, 2019
